Education

- ✔ Cyprus International University | 2020
Master of Science (M.S.) in Computer Engineering
 - I have a master's degree in Computer Engineering from Cyprus International University. I studied augmented reality in my master's thesis and developed an application called 'AReagent' that was released in App Store and Google Play. This app helped university students monitor molecules formed as a result of the reaction in 3D for the 'Limiting Reagent' subject of the General Chemistry course. My advisor was Asst. Prof. Dr. Cain Kazimoglu.
- ✔ Middle East Technical University | 2017
Bachelor of Science (B.S.) in Computer Engineering
 - I have a bachelor's degree in Computer Engineering from Middle East Technical University. For our senior project, we developed a web app called METU Event DB. I was responsible for the interface with HTML, CSS, and PHP.

Work Experience

- ✔ Frontend Developer | 2021 - Current
Freelance
 - Built the landing pages for the clients and updated them regarding their demands. Used HTML5, CSS3, Javascript, some JS libraries, Bootstrap and React.
 - Taken part in a project called Neighborhood App. Contributed to the development of some pages using CSS and React.
 - Reviewed the codes of some members in the Frontend Mentor community as a volunteer and suggested improving their codes in terms of accessibility issues, structure, and style.
- ✔ Frontend Developer | 2017-2018
Creditwest Bank, Northern Cyprus
 - Contributed to developing the in-bank document management system.
 - Implemented HTML5 and Bootstrap for layout.
 - Used AngularJS for the modal box and pagination.
- ✔ Software Intern | Jul 2014 - Sep 2014
Mobiliz, Ankara/Turkey
 - Participated in a meeting preparing for the demands of the clients and then experienced how to develop the user interface (HTML5, CSS3) regarding the demands.
 - Learned how to comment on the code so that other software developers could understand it.
